

ZAYAM MUSHTAQ

Business Development | Client Relations | Lead Generation | Tech-Enabled Solutions

Lahore, Pakistan | 0314-4526205 | zayammushtaq@gmail.com | linkedin.com/in/zayam-mushtaq-62569628b

PROFESSIONAL SUMMARY

Business Development professional with a Computer Science background (BS, University of Gujrat) and hands-on internship experience at a technology company (Qodeon Lab). Skilled in lead generation, client communication, requirement gathering, proposal writing, and relationship building, with the technical fluency to translate client needs into practical, technology-backed solutions. Certified in Digital Marketing and Digital Marketing Analytics (Cambridge International Qualifications, UK). Adept at bridging technology and business — building rapport with local and international clients while coordinating with technical teams to scope, propose, and deliver solutions. Seeking a Business Development role where technical understanding and client-facing excellence both add value.

CORE COMPETENCIES

Business Development: Lead Generation & Prospecting, B2B Outreach, Requirement Gathering, Solution-Based Selling, Relationship Building

Sales & Communication: Client Communication, Proposal Writing, Negotiation, Market Research, Competitor Analysis, International Client Coordination

Technology & Tools: Web Development (HTML, CSS, JavaScript), AI Fundamentals, Database Management Concepts, CRM Tools, Google Workspace, Microsoft Word/Excel

Marketing & Analytics: Digital Marketing Fundamentals, Digital Marketing Analytics

EXPERIENCE

Business Development Intern | Qodeon Lab

During University

- Supported lead generation and client outreach efforts alongside the technical team, gaining first-hand exposure to how client requirements translate into development scopes.
- Assisted in requirement gathering and documentation for client projects, coordinating between business and technical stakeholders.
- Contributed to proposal preparation and follow-up communication, building foundational experience in client relationship management within a tech company environment.
- Gained practical understanding of web development and AI-based project workflows, strengthening the ability to speak confidently with both clients and developers.

Freelance Web & Client Support Projects

Ongoing

- Applied web development skills (HTML, CSS, JavaScript) and AI fundamentals to small client-facing projects, handling requirement discussions end-to-end.
- Managed client correspondence, documentation, and follow-up using Google Workspace and standard productivity tools.

EDUCATION

Bachelor of Science in Computer Science — University of Gujrat, Pakistan

Relevant coursework: Business Communication, Database Management, Web Technologies, Documentation & Reporting, Team Collaboration
